## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 38 and 65 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 38 recites the limitation "said collection device" in line 2, there is insufficient antecedent basis for this limitation in the claim. In claim 65, line 6, the limitation "a first collection device" is indefinite since there is no second collection device being claimed.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 7, 8, 10-12, 14, 28, 30, 31, 38, 39, 42, 43, 48-51 and 65 are rejected under 35 U.S.C. 102(b) as being anticipated by Trevisan as best understood by the Examiner.

Trevisan discloses a powder spray system comprising: a spray booth 1/2/3, a powder feed apparatus 35, to supply powder to spray guns 14, a powder extraction 80 to remove powder overspray to a first collector dual cyclone 29 located outside the booth 1/2/3, a vacuum line 37 under negative pressure that connects cyclone 29 to a

second collection device 38/35, a vacuum source 36 connected to the cyclone 29 to transfer powder overspray from a powder outlet interface 30 that located adjacent to the dual cyclone 82 to a second collector 38/35 under vacuum, a sieve and vibrator 43, a valve 40 periodically interrupted the vacuum line 37 (see column 4, lines 64+).

With respect to claims 48-51, the apparatus shown by Trevisan is capable of performing the method or steps recited in the claims.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 9, 32-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trevisan in view of Shaneyfelt (U.S. Patent No. 5,288,324).

Trevisan teaches all the limitations of the claims except for a spray booth with a rotatable floor. However, Shaneyfelt discloses a spray booth 20 with a rotatable floor. Therefore, it would have been obvious to one having ordinary skill in the art to have provided the spray booth of Trevisan with a rotatable floor as suggested by Shaneyfelt. Doing so would provide a versatile powder coating device (see column 1, lines 63+).

***Allowable Subject Matter***

7. Claims 13, 40, 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

8. Applicant's arguments filed 9/11/06 have been fully considered but they are not persuasive.

9. Applicant's arguments with respect to claims 1-12, 14, 28, 30-39, 42, 43, 48-51, and 65 have been considered but are moot in view of the new ground(s) of rejection.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
